## Wisdom Shared Trail

### Re-learning the Past Together

### Preston Black History Group

### November 2020- August 2021

Preston Black History group developed the Wisdom Shared trail, as a response to the absence of Black History in education, and Black representation within cultural spaces. The project celebrates the group's tenth anniversary and reflects on the journeys made, both individually and together, exploring shared histories. Follow the trail inspired by their conversations and the images selected by the group to uncover forgotten histories and lost stories.

Wisdom Shared trail was created by artist and long-standing member of Preston Black History Group, Bernie Velvick.

More information about the project, and full statements from the group can be found using the QR code. →
