ABOUT ME

Name: Jenny Wood

Age: 19 (2020)

Hi, I'm Jenny the author of this booklet. I have just completed a photography course at Myerscough College, Preston and will soon start studying for a fine art and graphic design degree at The University of Chester

I live and grew up in the Lake District and I have loved art from a young age. My Nana is a great inspiration to me and later, my secondary school art teacher, Mr Hardy, encouraged me to experiment with styles and imagery which really helped me to develop my style.

My main areas of interest in the artistic world are portraiture, animals and I have recently found a new love of digital art.

I hope you enjoy this booklet and express your creative ability and imagination as much as possible!
